FROM THE PRESIDENT'S DESK
July 2010
BY HOWARD BARNES K0DFW

Well Bonnie is back after a long bout with some intense health problems and I must report that she is feeling better because she is starting to give me heck because I'm late with this monthly letter again! Hey Bonnie its great having you back. I want to say thanks to Fred for filling in and spreading the minutes amongst the club members. Thanks, Fred. As for me I have taken the last couple months off since Bonnie was down and there wasn't much going on anyway. But all that is coming to an end.

This week end we are having Field Day. I have lost 60% of my CW team and some of my officers say they won't be there but a limited amount of time, if they show up at all. Now since you are putting the odds against me..... I'm going to dig in like a Marine and not give a

inch and overcome the opposition! I have two dyed in the wool CW ops that I can depend on that is Lee and Kermit. These guys are battle ready and will carry the load. I have some Amateur hardened SSB ops that are lined up to carry the load on the microphones and we are ready to do battle. Now, if Mother Nature doesn't bestow a tornado to do direct hit on us I think we will survive this attempt in communications.

We have a Club bar b que coming up on July 31, and we are going to have bar b qued boneless pork chops, ground beef patties and hot dogs. Everyone show for this one. Free food and a great chef "me". What more could you ask for. Bring your table setting and a covered dish and come and enjoy the evening.

I am going to keep this president's letter short because I am starting to load up for Field Day tomorrow, and I have a kazillion things to get done between now and then.

See you at Field Day!

GJ – Jersey Look for Elana RV3ACA to activate Jersey from July 21 to 26 with special emphasis on the July 24 and 25 time period. QSL to her home call.

J6 – St Lucia WB4WXE will operate portable J6 from now until July 6th. Activity is heavy on 6 Meters with 17, 15 and 40 Meters being used when 6 is not open. QSL to his home call.

S7 – Seychelles Juan Carlos, EA2RC will be active from here beginning July 7th through the end of the month. All HF bands will be used with primary modes of SSB, RTTY and SSB. QSL to home call.

J2 – Djibouti F5MJV will activate this rare one from now until the end of 2011 or even later. His call will be J28JV and activity will be mainly CW and Digital with a little SSB thrown in. QSL to F5NQL.

JT – Mongolia JT1AS will operate as JT70AS to celebrate his 70th birthday. Activity will continue until the end of 2010. Operation will be on all bands with modes RTTY and PSK31. QSL to home call.

ST – Sudan ST2AR has been heard on 17 Meters on 40, 20 and 17 Meters. Look around 1730 on 17 Meters. QSL to S53R.

ZS8 – Marion Island ZS8M is now active on 40, 20 and 17 Meters SSB. He will be there for almost another year. QSL to ZS1X.

CY0 – Sable Island Randy, N0TG continues planning for the October 22-31 operation from this rare island. Plans are for a charter aircraft on and off the island and a good group of operators. Randy continues to gather support for this one.

Curacao – A bottleneck in the current elected council has forced new elections to form a new council. Once seated it will only take a majority vote of the new council to establish independence for these folks. A new one on the horizon.

DX tips for July

Once a DXer is able to move past the 280 countries confirmed mark, a real problem starts to develop.

& News...

Well another month has rolled around and it finds me behind again so the column will be a bit brief this month and we will deal with the news as we have it.

That problem is manifested by a lack of continued interest in DXing. Just why this happens is purely a result of the greatly reduced pace at which the new ones roll in. And this leads to boredom since the reward for DXing is satisfaction over an ever increasing DX total.

So how can one keep interest alive? Well for one thing start working toward 5BDXCC. This award is a real challenge and can promote renewed interest in total countries, not just overall total but also by band. Here the 40M and 80M bands are usually the hold outs and will take extra effort to get to that ever elusive 100 mark.

Another is to keep in touch with other local DXer's and stimulate one another's interest with occasional chats either in person or on the air. Talking about DX is almost as good as working it. Include new operators in the discussions and help them along. Just as the basics of the hobby promote Elmering new comers to the hobby, the same is true for DX'ers helping those new to chasing countries. In helping them you will help keep your own interests up until that rare new one comes along.

Till next month, so long from the far North,
Mike NA9Q/VY1

GOOD UPDATE ON AREA REPEATERS

The 146.700 at Monroe City is up, and linked to 145.190. The 146.835 is up, and linked to the 145.190, and they have a beam at Louisiana headed at Hannibal & Quincy to receive into the 145.190 machine. Gary NØSYL said to put the word out. So now we should have a pretty good link to National Weather Service at St. Louis, as they do use 145.190. OK the word is out. Keep an eye on the sky. ;-) 73's Oral KØUBR
